Competition Law Guidelines for the AFRAA Annual General Assembly

The AFRAA Aviation Stakeholders Convention (ASC) is a trade association activity of the African Airlines Association (AFRAA). AFRAA is publishing these Competition Law Guidelines to ensure that presentations, discussions and related activities at the ASC will be conducted in compliance with all applicable competition laws.

Statement of Policy

The purpose of the ASC is to provide a forum for legally permissible discussions of matters and subjects of interest to the aviation industry. It is AFRAA's intent to use the ASC to promote the interests of African aviation, suppliers of aviation products and services, passengers, shippers and the general public and to conduct it in full compliance with the United States antitrust laws, the competition rules of the European Union and the competition laws of all other relevant jurisdictions, taking into account any applicable exemptions or immunities from those competition laws.

Procedural Guidelines

The ASC shall be conducted pursuant to the following procedures in order to ensure compliance with all relevant competition laws:

1. The ASC shall be conducted at regular scheduled sessions, and at special meetings initiated pursuant to procedures set forth in AFRAA's internal governance rules. All discussions or conversations among ASC participants and attendees, including during breaks and scheduled or non-scheduled social activities connected with the ASC must follow these Guidelines.
2. Sessions of the ASC shall be conducted in accordance with written programmes and agendas that are reviewed in advance by AFRAA counsel familiar with the competition laws of the United States, the European Community and other relevant jurisdictions to assure that the items are in compliance with these laws.

Prohibited Agreements and Activities

1. The following types of agreements, whether express or implied, are STRICTLY PROHIBITED:
 - a. Any collective agreement concerning prices to be charged for services;
 - b. Any collective agreement allocating markets, territories, customers, suppliers or agents;
 - c. Any collective agreement relating to prices to be paid to suppliers, and any other agreement that is intended to, or that in operation is likely to, harm non-participants, including without limitation any agreement that is intended to, or in operation is likely to, exclude nonparticipants from any market; and
 - d. Any agreement that is intended to, or in operation is likely to induce airlines or their suppliers or agents to engage in collective anticompetitive behavior, or to collectively punish any business enterprise for its exercise of independent business judgment.
2. Recognising that the existence of an unlawful agreement or concerted practice may be inferred from circumstances, including the exchange of information by competitors, discussions or disclosures of the following types are also PROHIBITED, except when such information has otherwise been made public or AFRAA competition counsel advises that such discussions are legally permissible:
 - a. Individual airline fares, rates, charges or surcharges;
 - b. Individual airline costs;
 - c. An individual airline's intentions regarding increasing, reducing or reallocating aircraft capacity (including entering or exiting routes);
 - d. Information on individual airline customers; and
 - e. Any other sensitive commercial or proprietary information that the company would not disclose in the absence of an express or implied agreement to exchange such information for the purpose of reducing or restricting competition in the airline industry.

Welcome message from the **AFRAA Secretary General**

As the leading trade Association of African airlines, AFRAA is staging the 12th Aviation Stakeholders Convention (ASC) to provide a forum for industry players to dialogue, and exchange knowledge and experiences for the development of the travel ecosystem. The theme: “**Beyond connecting African aviation**”, will be the focus of the deliberations at the Convention that have been carefully developed to achieve outcomes that will attain a successful and viable African aviation industry.

In addition to the Convention, AFRAA, in partnership with the Flight Safety Foundation (FSF), will stage the inaugural African Aviation Safety & Operations Summit on 15 May 2024. Held under the theme: **Championing African aviation safety together**, the event will promote and enhance the safety level in the African region and share operational best practices. Aviation safety and operations events play a crucial role in continuously improving safety and operational processes, as they enable the sharing of relevant information and strengthen safety culture in the civil aviation industry.

AFRAA is excited to stage this Convention and Safety Summit for the travel ecosystem stakeholders to meet, deliberate on strategies to enhance efficiencies, create synergies, develop intra-Africa connectivity, and ensure business continuity that will enhance aviation and safety in the continent.

On behalf of members of the African Airlines Association (AFRAA), I take this opportunity to welcome all sponsors, exhibitors, speakers and delegates to the 12th Aviation Stakeholders Convention and the inaugural African Aviation Safety & Operations Summit. In preparing for this conference, care has been taken to ensure that all delegates derived the most benefits and satisfaction. We therefore hope that you will enjoy every bit of your time here. This year's events are proudly hosted by Ethiopian Airlines – the official carrier.

A conference of this nature would not be complete without an exhibition component. It is for this reason that we have offered the opportunity to suppliers and service providers to display their products at the event. You will find a diverse line of exhibitors largely from the aviation industry.

This conference and summit would not have been possible without the support of the Government of Ethiopia, our host – Ethiopian Airlines and the contributions of our proud sponsors.

Finally, I would like to express appreciation to our distinguished speakers, delegates and everyone participating in the 12th Aviation Stakeholders Convention and the inaugural African Aviation Safety & Operations Summit for making time to join us in Addis Ababa – Ethiopia, the land of origins.

Welcome to Ethiopia!

Mr. Abdérahmane Berthé
AFRAA Secretary General

Welcome message from **Ethiopian Airlines CEO**

On behalf of the entire staff, executive management, and the board of Ethiopian Airlines, I would like to extend a warm welcome to our vibrant city, Addis Ababa, for the Aviation Stakeholders Convention and the first-ever African Aviation Safety and Operations Summit.

We, at Ethiopian Airlines, are honoured to host the Aviation Stakeholders Convention for the second time in a row. This meeting is renowned for bringing together top aviation experts to engage in discourse, brainstorming, and dialogue with the aim of addressing the challenges

faced by African airlines and unlocking the vast potential of air transport in the region.

As you engage in discourse and dialogue, I encourage you to seize this opportunity to foster strong partnerships, build networks, and forge alliances that will drive the growth and development of the aviation industry in Africa. Together, we can overcome the challenges, unleash the potential, and create a thriving and sustainable aviation sector that benefits not only our airlines but also our economies and communities.

Stakeholders in African aviation and their partners play a critical role in promoting the significance of aviation to all relevant stakeholders, policymakers, and authorities. It is imperative to underscore the value of air transport as a substantial economic catalyst. Policymakers should focus on crafting policies that facilitate the growth of African aviation, encourage competition in aviation services, liberalise traffic rights (similar to North America, Europe, and others), streamline business operations by easing fund transfers, reducing taxation burdens, and making strategic investments in aviation infrastructure, including airports, maintenance facilities, and aviation training academies.

I express my sincere appreciation to the Secretary General of AFRAA and the entire staff for entrusting Ethiopian Airlines with the privilege of hosting these prestigious events. It is through collective efforts and shared aspirations that we can propel African aviation to new heights.

May your discussions be filled with innovative ideas, collaborative strategies, and practical solutions that will shape the future of African aviation. Furthermore, I hope your time in Addis Ababa is filled with inspiration, meaningful connections, and memorable experiences. I eagerly anticipate witnessing the positive outcomes that will emerge from your discussions and the lasting impact they will have in shaping the future of aviation in Africa.

CONNECTING THE WORLD THROUGH THE POWER OF TRENT

We are investing more than **£1 BILLION** in a programme that will deliver further durability improvements to the Trent engine family.

WE ARE MORE THAN DOUBLING the engine time on-wing, for our Trent 7000, Trent 1000 and Trent XWB-97 engines.

About the African Airlines Association

The African Airlines Association, also known by its acronym AFRAA, is a trade association of airlines which hail from the nations of the African Union. Founded in Accra, Ghana, in 1968, and today headquartered in Nairobi, Kenya, the primary purposes of AFRAA are to foster commercial and technical cooperation among African airlines and to represent their common interests. AFRAA membership comprises of all the major intercontinental African operators and the Association's members represent over 85% of total international traffic carried by all African airlines.

Over the last 55 years, AFRAA has been instrumental in developing and articulating air transport policy issues in Africa and helping to build a formidable industry. It has been in the fore-front of major initiatives in the air transport field in Africa, sensitizing airlines to take concrete actions for cooperation in Operational, Legal Commercial, Technical, Information Communication Technology (ICT) and Training fields.

AFRAA is instrumental in lobbying African Governments, the African Union, the African Civil Aviation Commission and other regional and sub-regional organisations on actions to be taken to develop an efficient air transport system. AFRAA has been a catalyst for major aviation policy decisions in the continent.

Vision

A sustainable, interconnected and affordable Air Transport industry in Africa where African Airlines become key players and drivers of African economic development.

Mission

To promote, serve African Airlines and champion Africa's aviation industry.

Objectives

AFRAA as an association has the following strategic objectives:

- i. Safe, secure and reliable air transport
 - Promote the industry's best practices to support safe, secure and reliable air transport in Africa
- ii. Enhance the visibility, reputation and influence of African Airlines in the global Aviation industry.
- iii. Sustainable air transport
 - Advocate for the reduction of costs of air transport services in Africa by reducing taxes, fees and charges;
 - Strive for the implementation of cost-effective Human Resource Development;
 - Lobby for market access to increase revenues and enhance connectivity for the aviation sector in Africa;
- iv. Cooperation
 - Undertake the implementation of joint initiatives aimed at reducing operating costs for airlines, increasing revenues and market share;
- v. Data intelligence
 - Become a hub for data, intelligence and expertise on the African Aviation Industry.

Joint Projects: The Association has set up Task Forces/Steering Committees as the vehicle to reduce airline costs, increase their revenues, address members' common interests and adopt industry best practices. These include:

- Fuel Purchase
- Route Network Coordination
- Ground Handling
- Cargo
- Distribution
- Training
- Technical and Operations
- Aeropolitical

How to become a **Member of AFRAA**

The main criterion for membership in AFRAA is that an airline shall have its registered office and principal place of business in a State eligible for membership in the African Union.

The potential member will have to complete and submit an application form together with the airline's Certificate of Incorporation, Articles of Association and Air Operators Certificate. The completed application form is processed by the Secretariat and submitted to the next regular meeting of the Executive Committee for review and approval. Currently there are 43 member airlines. All members pay an annual membership fee.

How to become a **Partner of AFRAA**

Any company other than an airline that does business with or provides services to the aviation industry may apply to become a Partner of AFRAA. The aim of the partnership programme is to pool together additional support and resources from industry-related organisations to develop the industry while providing opportunities for the Partners to benefit from a relationship with an efficient, knowledgeable and influential air transport trade association in Africa.

A potential Partner will have to complete and submit an application form which will be submitted by the Secretariat to the next regular meeting of the Executive Committee for review and approval. Currently, there are 34 companies enrolled on the partnership programme. All Partners pay an annual partnership fee.

About the **12th Aviation Stakeholders Convention**

AFRAA stages the Aviation Stakeholders Convention every year with the aim to foster dialogue among stakeholders in order to build sustainable networks in the travel ecosystem. The event provides a conducive forum for stakeholders to dialogue, interface, exchange knowledge, information and experiences and build networks.

This year's Convention is proudly hosted by Ethiopian Airlines, the official carrier of the event. The Convention is expected to attract over 400 high-profile delegates from the aviation industry in Africa, Europe, the Middle East, Asia and North America.

Held under the theme, "**Beyond connecting African aviation**" this year's Convention is the industry's ideal platform to drive growth opportunities and deliberate on the developments of the African aviation industry.

The African Airlines Association would like to thank all partners and sponsors for their continued support and all of you, delegates for attending.

About the **Inaugural AFRAA – FSF Inaugural African Aviation Safety and Operations Summit event**

The sustainability Aviation safety and operations events play a crucial role in continuously improving safety and operational processes, as they enable the sharing of relevant information and strengthen safety culture in the civil aviation industry. These conferences promote collaboration and knowledge exchange by bringing together experts and stakeholders, driving efforts to make aviation safer for all involved.

Organising an aviation safety event serves as a catalyst for safety promotion, bringing together industry experts, stakeholders, and regulators to collaborate, share knowledge, and address critical issues, ultimately fostering a culture of continuous improvement and ensuring the highest standards of safety in the aviation industry.

In partnership with the Flight Safety Foundation (FSF), AFRAA is staging the Inaugural African Aviation Safety & Operations Summit under the theme: Championing Africa Aviation safety together.

About the **3rd edition of the CSR event in Youth Development in Aviation**

The sustainability of the aviation industry in Africa in the future will largely depend on a holistic approach of actions undertaken by all relevant stakeholders. The development of skilled aviation professionals in the aviation and aerospace industry in Africa is one of the critical focus areas for these industry actions. A large contingent of the current aviation professionals will retire and the aviation growth will require more qualified and competent professionals to meet its future needs. The Continent can train, develop and groom youth to meet the African global needs of the aviation industry of tomorrow.

On the backdrop of a successful CSR event for the development of youth and women in aviation that was held by AFRAA-Collins Aerospace and Kenya Airways which took place at the side-lines of the 10th Aviation Stakeholders Convention on 7 May 2022 in Nairobi – Kenya, the third edition of the initiative will be held at the side-lines of the 12th Aviation Stakeholders Convention on 16 May 2023 in Addis Ababa Ethiopia. This initiative is a follow-up on implementation of actions arising from the AFRAA-Collins Aerospace conference that took place in virtual format from 19-20 October 2021 and brought together over 300 participants comprising of the Travel and Tourism fraternity in Africa and across the globe who made recommendations for action on gender diversity and youth development in aviation. The recommendations on youth development comprised of actions under various areas including training, leadership and policy actions, financing and employment opportunities.

The objective of the 2024 edition will be to provide mentorship, and facilitate the sharing of information and experiences to an estimated 150 high-school students from various schools in a bid.

About Ethiopia

Ethiopia is an ancient country whose unique cultural heritage, rich history, and remarkable biodiversity are reflected in a tally of nine UNESCO World Heritage Sites – more than any other country in Africa. Within its borders, you'll find the world's fourth-holiest Islamic city, along with the oldest continuously occupied town south of the Sahara. Compelling antiquities include the medieval rock-hewn churches of Lalibela and Gheralta, ruined palaces and temples dating back 3,000 years, the magnificent 17th-century castles of Gondar, and the oldest human fossils unearthed anywhere on the planet. Add to this the beautiful Simien and the Bale Mountains, the spectacular volcanic landscapes of the Danakil Depression, and a wealth of mammals and birds found nowhere else in the world, and it's little wonder that Ethiopia has become the most attractive and popular emergent tourist destination in Africa.

Ethiopia's fascinating and enigmatic recorded history stretches back 3,000 years to the reign of the Queen of Sheba and King Solomon.

The country's rich biodiversity is reflected in varied flora and fauna embracing more than 50 endemic species of mammals and birds, ranging from the iconic Ethiopian wolf to the spectacular Raspoli's turaco.

A stable and peaceful democracy since 1994, Ethiopia Today is a federal state whose progressive economic policies are reflected in a post-millennial average annual growth rate of around 10 percent.

A unique musical heritage and cuisine, together with ancient coffee culture and a thriving arts and crafts scene, ensure that the Ethiopian lifestyle has much to offer curious visitors.

About the event venue **Ethiopian Skylight Hotel**

A striking contemporary property with elegant design and outstanding facilities in a prime location just 5 minutes walk away from the Addis Ababa Bole International Airport, Ethiopian Skylight Hotel promises guests an unforgettable experience during their visit to Addis Ababa. The hotel is a convenient and aspirational accommodation option for business and leisure travellers, and people visiting this vibrant city.

Be spoilt for choice with 1024 comfortably modern rooms and suites with different room types. Check out the extra modern amenities of our suites. All rooms and suites offer a host of contemporary design features and essential comforts, including full Wi-Fi connectivity, that meet the needs of long- and short-stay guests at Ethiopian Skylight Hotel.

Conference Information

Color codes for name badges: The following are the color codes of the name badges for the various delegate categories.

	AFRAA Airlines
	Partners/Non-AFRAA Airlines
	Manufacturers/Service Providers/ Airports/Civil Aviation Authorities/ Government Officials/Industry Partners/Students
	Media
	Speakers
	Hosting Team/AFRAA Staff

NB: For security reasons, all delegates are requested to wear their name badges at all times throughout the conference and social functions of the AGA.

The dress code for the conference sessions is **business formal**.

Registration

Color codes for name badges: The following are the color codes of the name badges for the various delegate categories.

Event venues

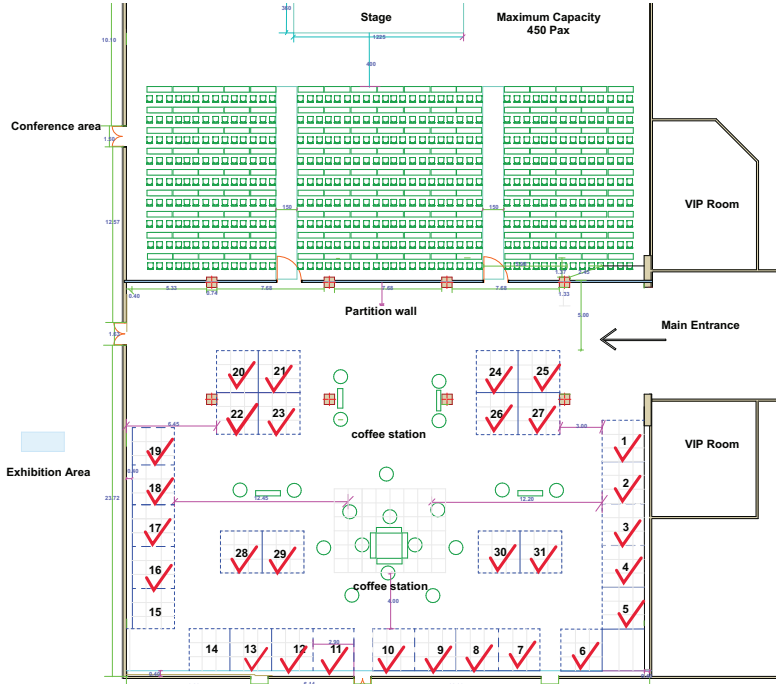

Color codes for name badges: The following are the color codes of the name badges for the various delegate categories. The venues for the various ASC activities are as follows:

- **Plenary Room** – Abyssinia Ballroom
- **Exhibition Room** – Abyssinia Ballroom
- **Welcome Cocktail** – Taste of Ethiopian Restaurant(to be updated)
- **Gala Dinner** – Ballroom Ground Floor Phase II
- **Break out Rooms:**
 - Meeting Room 1 – Media Room
 - Meeting Room 2 – Master Class
 - Meeting Room 3 – Master Class / Press Conference
- **Secretariat** – VIP Holding Room II
- **VIP Room** – VIP Room I

GE Aerospace

GE Aerospace, Software as a Service helps airlines operate at peak safety and efficiency — faster than ever before.

The Inaugural African Aviation Safety & Operations Summit

15 May 2024, Skylight Hotel, Addis Ababa – Ethiopia

Programme of Events

Theme: Championing Africa aviation safety together

Pre-event session

AFRAA Technical, Operations & Training Committee (by invitation only) – Sunday 12 May 2023, time 09.00hrs

Tuesday 14 May

Time	
18.00 – 22.00hrs	Cocktail reception

Wednesday 15 May

Registration of Participants

Time	
09.00-09.40hrs	<p>Opening Ceremony</p> <ul style="list-style-type: none"> • Welcome and opening remarks – Mr. Abdérahmane Berthé, AFRAA Secretary General • Speech by Dr. Hassan Shahidi, President & CEO - Flight Safety Foundation • Speech by Mr. Mesfin Tasew - Ethiopian Airlines Group CEO • Speech by Mr. Getachew Mengiste, Director General - Ethiopian Civil Aviation Authority
09.40-10.10hrs	<p>Presentation 1 Safety Report of RASG AFI, Safety Performance and Sustainability for Africa by ICAO</p> <p><i>This session will delve into key highlights and safety performance metrics, offering a snapshot of the region's aviation safety landscape. The presentation will focus on the strides made, challenges addressed, and the roadmap for sustaining and advancing safety in African skies.</i></p> <p>Presenter: Mr. Eyob Estifanos - Associate Regional Programme Officer, Comprehensive Regional Implementation Plan for Aviation Safety in Africa (AFI Plan) ICAO ESAF Office</p>

Time	
10.10-10.40hrs	Networking coffee break
10.40-11.20hrs	<p>Presentation 2 Championing Better and safer Skies for Africa <i>This session kicks off with two presentations. The global perspective will provide insights into international benchmarks, collaborative initiatives and emerging global aviation safety trends. Immediately following, the African perspective will delve into the unique challenges and opportunities within the continent, sharing firsthand perspectives and innovations that contribute to a safer, more resilient future for African skies.</i></p> <p>Presenters:</p> <ul style="list-style-type: none"> • Global perspective: presentation by Dr. Hassan Shahidi, President & CEO - Flight Safety Foundation • African perspective: presentation by Mr. Abdérahmane Berthé, Secretary General - AFRAA
11.20-11.35hrs	<p>Presentation by FSF leading to the panel session by Mr. Henry Gourdjji, Director of Safety Strategy and Policy - Flight Safety Foundation</p>
11.35-12.40hrs	<p><i>Accidents and the current risk picture. Join industry leaders from international aviation organizations, airlines, safety regulators, aircraft manufacturers, and academia in a panel discussion. The Flight Safety Foundation will kick off the session with a presentation on accidents and serious incidents highlighting high-risk categories in the region, prompting panellists to collectively explore and address underlying factors driving safety trends in African aviation.</i></p> <p>Panel discussion How do we address the underlying factors behind the safety trends in Africa?</p> <p>Panellists:</p> <ul style="list-style-type: none"> • Mr. Jehad Faqir – AME Head of Regional Safety, IATA • Mr. James Danga, Safety Expert - African Civil Aviation Commission (AFCAC) • Ethiopian CAA • Ms. Hellen Ndichu, Director Safety - RwandAir • Mr. Kayode Ariwodola - Director, Global Safety and Regulatory Affairs – Middle East & Africa Dubai Office, Boeing • Mr. Alberto Grande, Operations Safety Enhancement Director - Airbus

Time	
	<p>Moderator: Capt. Irene Koki Mutungi, Board Member - Flight Safety Foundation</p>
<p>12.40-13.00hrs</p>	<p>Presentation 3 Runway Safety - Case study by Aviation Safety Alliance for Africa (ASAA) <i>Using a case study, ASAA experts will highlight key strategies, technological advancements, and collaborative initiatives aimed at elevating runway safety standards across African airports.</i> By Capt. Gilbert Kibe</p>
<p>13.00-13.20hrs</p>	<p>Presentation 4 Safety culture, leadership, and addressing human factors for safety enhancement by IATA <i>IATA experts will share their expertise and insights on the pivotal role of leadership in shaping and sustaining a robust safety culture within the aviation industry and provide effective strategies for mitigating human factors in aviation incidents.</i> Presenter: Mr. Jehad Faqir – AME Head of Regional Safety, IATA</p>
<p>13.20-14.20hrs</p>	<p>Networking Lunch</p>
<p>14.20-15.20hrs</p>	<p>OEMs' Perspective: <i>The balance between automation and Safety in operations and maintenance – technological evolution of aircraft</i></p> <ul style="list-style-type: none"> • Boeing by Mr. Kayode Ariwodola - Director, Global Safety and Regulatory Affairs – Middle East & Africa Dubai Office • Mr. Christopher McGregor, Flight Safety Officer - ATR • Collins Aerospace, by Mr. Jens Ziesel - Marketing EuMEA Collins Aerospace Avionics • Capt Malcolm Ridley, Chief Test Pilot of Airbus Commercial Aircraft - Airbus <p>Q and A</p>
<p>15.20-16.40hrs</p>	<p>Safety Information-sharing Session</p> <p><i>Sharing of safety best practices, experiences on safety incidents, and techniques to ensure actions are in place that will lead to matching world averages on safety performance. Chatham House rules. Restricted to safety practitioners.</i> Interventions by:</p> <ul style="list-style-type: none"> • Mr. Christopher McGregor. Flight Safety Officer - ATR

Time	
	<ul style="list-style-type: none"> • Mr. Sarbhpreet Sawhney, FAA Office of Accident Prevention and Investigation • Mr. Rodrigo Priego, Section Manager - Initial Airworthiness Standards & Specifications – European Union Aviation Safety Agency (EASA) • Captain Haig Anyonyi, Director Corporate Quality, Safety and Environment – Kenya Airways • Presentation on behalf of South African Airways <p>Moderators: Mr. Abdérahmane Berthé, Secretary General - AFRAA Secretary General Dr. Hassan Shahidi, President & CEO - Flight Safety Foundation</p>
16.40-17.00hrs	<p>Closing Recap of event outcomes, recommendations, and action plan by Mr. Sinaly Bagayoko, Senior Manager Technical & operations - AFRAA Closing remarks by Mr. Abdérahmane Berthé, Secretary General - AFRAA</p>
17.00-17.30hrs	Networking coffee

Speaker Profiles

Mr. Abdérahmane Berthé
Secretary General
AFRAA

Mr. Berthé was the CEO of Air Mali and Air Burkina. He has 28 years' experience in airline industry and a total of 16 years as an airline CEO. Mr Berthe built his career in various Airlines and multicultural environment both in Europe and Africa at positions such as aircraft performance and dispatch engineering, maintenance and operations quality, ground operations and Chief Executive Officer. Abdérahmane is graduated from: – French Civil Aviation school in Toulouse (1987 Master of Science degree). – French Aeronautical and Space school in Toulouse (1988 Master of Science degree) - Business Institute in Toulouse (1989 Master degree) He also obtained a Private Pilot License in 1985 for Single Engine Aircrafts.

Mr. Mesfin Tasew
CEO Ethiopian Airlines

Mr. Mesfin Tasew was appointed as Group Chief Executive Officer of Ethiopian Airlines in March 2022. He joined Ethiopian in 1984 as Associate Engineer and progressed through the ladder and served in supervisory and managerial positions in the Aircraft Maintenance and Engineering areas. In 1997 and 1999, he was appointed as Director Operations & Technical Systems Support and Chief Information Officer, respectively. In 2006, he was appointed as Vice President of Maintenance and Engineering. Mr. Mesfin also served as Chief Operating Officer of Ethiopian Airlines from 2010 – 2021, and Chief Executive Officer of ASKY Airlines from April 2021 to March 2022. Mr. Mesfin also serves as a member of the International Air Transport Association (IATA) Board of Governors. He holds BSC and MSc Degrees in Electrical Engineering from Addis Ababa University. He also holds Master's in Business Administration (MBA) from Open University in the UK.

Kamil Al-Awadhi
Regional Vice President of
Africa and The Middle East
International Air Transport
Association (IATA)

Kamil Al-Awadhi is the Regional Vice President, Africa and the Middle East Kamil is Regional Vice-President for Africa and the Middle East (AME), representing IATA in 68 countries, and serving 57 airlines across AME. Prior to joining IATA, Kamil was the CEO of Kuwait Airways and held various key positions at the airline. A national of Kuwait, Al-Awadhi holds an MBA in Aerospace Management from the Toulouse Business School and an Engineering degree in Aircraft Maintenance Management from Air Service Training (AST) in the UK.

Dr. Hassan Shahidi
President & Chief
Executive Officer
Flight Safety Foundation

Dr. Hassan Shahidi is the president and CEO of Flight Safety Foundation, where he leads a global campaign and advocacy to improve aviation safety since 2019. With centers and offices in Washington, Melbourne Australia, Singapore, Brussels, The Hague, Montreal, he leads an organisation with more than 1000 members to advance global aviation safety and address the most critical safety issues in aviation. Prior to joining the Foundation, he served as an executive at MITRE, where he led research and engineering initiatives relating to safety and advanced aviation system development. He directed the Aviation Safety Information Analysis and Sharing (ASIAS) program, a government-industry safety data sharing partnership he helped launch in 2007. Since then, he has extended and promoted the concept of safety data sharing in other regions around the world.

Dr. Shahidi has over 40 years of experience in applying systems engineering and data analytics to advance air traffic control in the United States and around the world. He led several air traffic modernization initiatives, including performance-based navigation (PBN), airspace design, traffic flow management and terminal automation concepts. Dr. Shahidi led a number of initiatives in the 1980s as part of the early air traffic modernisation programme.

Dr. Shahidi holds a private pilot license. He is a recipient of various industry awards, including the RTCA Outstanding Achievement Award and Aviation Week Laureates Award. He holds a bachelor's degree and a master's in international economic studies, a master's in systems engineering and operations research, and a doctorate in engineering management.

Henry Gourdji
Director of Safety Strategy
and Policy
Flight Safety Foundation

Henry Gourdji is currently Director of Safety Strategy and Policy with the Flight Safety Foundation, and prior to that, spent over 22 years with the International Civil Aviation Organization (ICAO). He has held such positions as Head of Strategic Planning, Coordination and Partnerships in the Office of the ICAO Secretary General and led the Office responsible for developing and managing the Universal Safety Oversight Audit Programme (USOAP). Prior to ICAO, he worked in the Canadian civil service and industry, including 10 years with Transport Canada civil aviation authority. Mr. Gourdji is a recipient of various safety awards, including the prestigious Meritorious Service Cross (M.S.C) from the Governor General of Canada for monitoring compliance and augmenting safety procedures around the world and enhancing Canada's reputation as an international leader in the field of civil aviation. In 2021, he was awarded the Laura Taber Barbour Air Safety Award for his significant contributions in improving aviation safety worldwide. He holds a Bachelor of Science degree in Aeronautics and completed strategic studies with the Canadian Armed Forces. He is a licensed aircraft maintenance engineer and is an active pilot with a multi-engine rating. He retired after 31 years of Canadian military reserve service attaining the rank of Lieutenant-Colonel.

Christophe Ritter
CEO of Milanamos and
co-Founder of AIRPM

A results-oriented executive and entrepreneur with over 20 years of cutting-edge experience in aviation. Successfully founded two companies specialising in expert software solutions for the aviation industry and played pivotal roles in large-scale airline restructuring projects. Developed commercial planning solutions for aviation, sold to over 50 airlines and airports. Led airline restructuring programs, focusing on cost reduction, revenue enhancement, and participation in international alliances. Skilled in fundraising and managing complex financing arrangements. CEO of Milanamos and co-Founder of AIRPM.

Mr. Esayas W. Hailu
Chief Executive Officer
ASKY Airlines

Mr. Esayas W. Hailu is currently CEO of Asky Airlines operating in West, Central and South Africa, from its base in Lomé, Togo, since May 2022. In his capacity as CEO, he identifies, develop, and implements strategic goals and objectives of ASKY and fulfill its governance function. He provides direction and leadership toward the achievement of the organisation's mission and strategy. He maintains and develops policies and procedures, organisational culture, values and reputation within the industry and with all staff, customers, suppliers, partners and regulatory bodies. He ensures the sustainable management of Human Resources, Operations, Product/ Network, Finances, Safety/Security, Brand, Communications, Controls, and overall Performances. He joined Ethiopian Airlines in 1990 as a fresh graduate from University, and served the airline for 32 years in different Senior Management positions including Expert Flight Performance and Yield Analysis, Manager Revenue Management and Central Reservations Control, Regional Manager Greece & the Balkans, General Manager Nigeria, Director for Germany and Central Europe, Vice President Ethiopian Cargo, Senior Vice President Global Sales, MD Ethiopian International Services, Chief Commercial Officer of Ethiopian Airlines in the position of deputy CEO, and from May 2022, moved to Asky Airlines as CEO, a position he holds at present. (A total of 33 years' experience in Aviation) He also serves as member of the Executive Committee of AFRAA (African Airlines' Association) Mr. Esayas W. Hailu is holder of Master's Degree in Business Administration MBA from The Open University in UK, and BSc. Degree in Mathematics from Addis Ababa University. He is married and a father of two children.

H.E. Nasise Challi Jira
FDRE Minister of Tourism
Ethiopia.

Nasise Challi is the Minister of Tourism since October 2021. Prior to her current ministerial position, Nasise was Ethiopia's Ambassador to Canada.

Nasise received her Bachelor of Arts degree in Foreign language and literature and Master of Arts in Teaching English as a Foreign Language both from Addis Ababa University. In addition, she received additional degree from the renowned University of Washington in Seattle in informatics, specialising in information assurance and cybersecurity. Prior to her current role, she was a cybersecurity engineer with The Boeing Company in Seattle.

Nasise began her career as a lecturer at universities in Ethiopia, including Jimma University, St. Mary's University and Adama Science and Technology University. She has also served as a Director, Directorate of Protocol and Public Relations in the president's office of Oromia Regional state administration.

Dr. Alemu Sime Feyisa
Minister of Transport and
Logistics, the Federal
Democratic Republic of
Ethiopia

Dr. Alemu Sime Feyisa is a distinguished figure whose career spans over a quarter of a century in pivotal government and political roles. As the current Minister of Transport and Logistics, Dr. Alemu has been instrumental in steering Ethiopia's journey towards infrastructural development and connectivity.

His deep-seated knowledge of our nation's multifaceted dynamics has been crucial in his contributions to the transportation sector, ensuring that the veins of our country's infrastructure – our roads, railways, airways, and ports – pulse with efficiency and purpose. Today, as we stand on the cusp of the 12th Aviation Stakeholders Convention, we are privileged to have Dr. Alemu set the stage for a discourse that is vital to our nation's heartbeat.

Eyob Estifanos

Associate Regional Programme Officer
-Eastern and Southern Africa Regional Office
International Civil Aviation Organization (ICAO)

Eyob has over 25 years of experience in civil aviation with a focus on Leadership, Air Transport Policy, Infrastructure Planning and Programme Management. He has a Master of Science (MSc) degree in Economic Policy Analysis from Addis Ababa University, Faculty of Business and Economics. Eyob had served at various Senior leadership positions in the Civil Aviation Authority and Airport Enterprises in his home country, Ethiopia. He had also served as Air Transport Director in the Civil Aviation Authority of Botswana.

Currently Eyob serves at the International Civil Aviation Organization (ICAO) Eastern and Southern Africa Regional Office as Associate Regional Programme Officer. He is primarily responsible for coordinating and monitoring the effective implementation of the Comprehensive Regional Implementation Plan for Aviation Safety in Africa (AFI Plan), a key continental programme designed to improve aviation safety in the region.

Gaoussou Konate

Director, Technical and Operations
AFRAA

Mr. Konate joined AFRAA just after he completed a nine-month consultancy contract with the African Development Bank and contributed to the development of the Bank Framework and Guidelines to Support the Aviation Sector in the Region. He brings a vast experience comprising both air transport and civil aviation. His 35-year-corporate experience covered: International Civil Organisation (ICAO), he served as Deputy Regional Director of the Western and Central; for 8 years, he serviced IATA Regional Office for Africa and Indian Ocean (AFI) where he joined as Manager Safety and became Regional Director Safety, Operations, and Infrastructure; as AFRAA Technical Director, he fostered cooperation among African air carriers for 11 years. Before AFRAA, he worked at Air Afrique for just over a decade.

Hellen Ndichu

Director of Safety at
RwandAir

Hellen Ndichu is the Director of Safety at RwandAir the national carrier of Rwanda, based in Kigali, boasting an impressive career spanning over 15 years in aviation. An accomplished professional in the field of aviation safety. She is also a Board Member of the AviAssist Foundation, a non-profit organisation that promotes aviation safety in Africa and an active member of IATA Regional Coordination Groups.

Jonathan Newman
Global Business
Development
Accelya

Jonathan Newman is part of the Global Business Development team at Accelya, helping airlines to generate value from commercial strategy and distribution, leveraging over 20 years of global industry experience. Prior to joining Accelya, Jonathan has held senior commercial roles in global airlines and travel technology companies.

Ms. Maureen Kahonge
Senior Manager, Business
Development and
Communications
African Airlines Association

Ms. Maureen Kahonge is the Senior Manager Business Development & Communications at AFRAA, a position she has held since in February 2016. Prior to her appointment, she held the position of Business Development Manager at the Association.

Maureen is a Passionate aviator with 12 years' aviation experience at the African Airlines Association – AFRAA, the leading trade Association of African airlines. She has coordinated various initiatives that facilitate beneficial cooperation among African airlines and with the view to adopt and implement cost-effective common solutions to address market needs.

An analytical thinker with commercial orientation and strong customer focus, Maureen is well-versed on air transport industry trends and dynamics. Her role at AFRAA covers the development and management of beneficial working relationships with member airlines and partners, marketing, events, PR & Communications.

She is a holder of a Bachelor of Education (Arts) degree in Business Administration and French from Kenyatta University and a Masters in Business Administration Strategic Management and Finance at the United States International University, Kenya. She is a Kenyan in nationality and is fluent in French and English.

Ms. Nozipho Mdawe
Chief Executive Officer
Air Traffic and Navigation
Services (ATNS) SOC Ltd

Ms. Nozipho Mdawe is the Chief Executive Officer of the Air Traffic and Navigation Services (ATNS) SOC Ltd where she is the second black African woman to be appointed to the helm from April 2022.

She boasts a wealth of knowledge, skills, and professional experience in orchestrating operational excellence in the transport sector for almost three decades. Ms. Mdawe has worked for established companies that included Transnet Corporate Office, Transnet Freight Rail, Transnet Port Terminals, in addition to Apron Services, Besa (PTY) Ltd and General Mining, which was incorporated into BHP Billiton. Having managed an asset base of up to R80 billion in her career, Ms. Mdawe has driven change management and strategy execution to enhance shareholder value in areas that included Freight, Maritime, Aviation, as well as in Mining, Logistics and Supply Chain.

Her career footprint extends to the regional integration of the Southern African Development Community (SADC) countries armed with sound commercial and trade facilitation strategies – often during a tough economic climate. Ms. Mdawe started her career as a trainee geologist while studying towards a Geology Diploma at Witwatersrand Technikon in 1994 before her turnabout into business management through the Wits Business School. Today she holds a Master of Business Administration Degree from the Gordon Institute of Business Science (GIBS). She has further served as a Board Member of the Transnet National Ports Authority (TNPA) and elected to the key industry body, the Port Management Association of Eastern and Southern Africa Countries (PMAESA) as its Secretary General/Chief Executive Officer and Executive Secretary, respectively. She is also a member of the Institute of Directors in South Africa (IoDSA).

Raphael Kuuchi
Consulting Director,
Government, Legal and
Industry Affairs- AFRAA

Raphael Kuuchi is a Consulting Director for Government, Legal and Industry Affairs at the African Airlines Association (AFRAA). In this role, he leads AFRAA engagements with airlines, governments, regional and industry stakeholders in addressing aero-political and regulatory developments impacting African aviation. He is also involved in the Single African Air Transport Market implementation (SAATM) and airlines environmental and sustainability initiatives in AFRAA. Prior to his current role, he served for 7 years as IATA Vice President for Africa and subsequently the IATA Special Envoy to Africa on Aero-political Affairs.

Raphael has many years of experience in aviation operations, management, consulting and advocacy. He holds MBA in management and a Business Administration degree in Accounting. He is a Fellow of the Chartered Institute of Logistics and Transport (FCILT) UK.

Zemedeneh Negatu
Global Chairman
American investment firm
Fairfax African Fund

Zemedeneh Negatu is the Global Chairman of the American investment firm Fairfax African Fund, LLC, based in Washington D.C. He was the managing partner and founder of Ernst & Young Ethiopia, Head of EY's East Africa Transaction Advisory business. Prior to EY he was with PwC U.S. Zemedeneh is widely recognized as one of Africa's top business leaders and has received numerous global recognitions including:

- "Top 10 Most Influential Africans 2018"
- "100 Most Influential Africans of 2013"
- "Who-Is-Who of African Finance 2015"
- "Titans Building Nations 2014"

Zemedeneh regularly provides influential thought leadership and has appeared on CNN, BBC, Financial Times, Bloomberg, CNBC. Furthermore, he has spoken at high profile global events such as the World Economic Forum (WEF), Harvard Business School and the Milken Global Summit.

He serves on numerous corporate advisory boards including InvestAfrica, based in London (UK), the global advisory board of the University of Texas at Dallas business school, a successful Fintech based in the Netherlands and as Chairman of Calzedonia Ethiopia (ITACA), the multinational Italian fashion apparel manufacturer and retailer.

Zemedeneh has a BBA from Howard University, completed the LSE program at the Harvard Business School and is a U.S. C.P.A.

Sohail Imtiaz
Payment Sales Engineer
META
Amadeus

Sohail is a certified PMP, AWS Solution Architect, Microsoft Certified Data Analyst. He has been serving the travel technology field for most of his career but joined Outpayce from Amadeus in January 2020.

Although based in Dubai, he relishes the opportunity to work from the picturesque landscapes of Australia, where the blend of work and vacation offers a refreshing balance to a busy life.

Santiago Haya-Leiva
 Technical Cooperation
 Officer
 European Aviation Safety
 Agency (EASA)

Santiago Haya-Leiva is a Spanish aeronautical engineer working for the European Aviation Safety Agency (EASA) as Technical Cooperation Officer. Santiago is currently the Project Manager of the ACT-SAF Africa-India and Operations Manager of the EU-ASEAN SCOPE APP, both EU funded projects to support the development of Sustainable Aviation. He joined the EASA International Department in 2019 to lead two EU projects in Southeast Asia, supporting the implementation of the ASEAN Single Aviation Market and dealing with a wide range of aviation topics, including Environmental Management Systems at airport level and Sustainable Aviation (e.g. CORSIA, State Action Plans for CO2 emissions reduction, Sustainable Aviation Fuels).

Santiago joined EASA in 2011 as Occurrence Reporting officer to put in place the Internal Occurrence Reporting System of the Agency (IORS). Among other tasks, he was the project manager dealing with the implementation of the Regulation 376/2014 on occurrence reporting within EASA and assisted the European Commission and Member States in its implementation. Santiago also led the development of the EASA Safety Risk Management process as Senior Safety Analyst in charge of the Commercial Air Transport Risk Portfolio for Aeroplane Operation. The Safety Risk Management process is currently the analysis mainstream supporting the European Plan for Aviation Safety (EPAS). Before joining the EASA, Santiago worked for the Spanish CAA. He started his career 2001 as maintenance control engineer for Iberworld Airlines in Spain.

Rodrigo Priego
 Section Manager , Initial
 Airworthiness Standards
 and Specifications
 European Aviation Safety
 Agency (EASA)

Rodrigo Priego is a Spanish Aeronautical Engineer with more than 24 years of experience in aviation. He has worked for The Boeing Company in the United States and for Airbus in Spain carrying out responsibilities in avionics systems design both for commercial and military airplanes. In May 2009, he joined the European Aviation Safety Agency (EASA) and became responsible for the creation of a European Aviation Safety Programme (EASP) and Plan (EPAS) in collaboration with States, industry and the European Commission. As part of the Strategy and Safety Management Directorate of EASA, he has held positions as manager of the safety programmes section and acting head of the strategy and programmes department. In January 2021 he became the manager of the team responsible for Initial Airworthiness Standards and Specifications in EASA's certification directorate. In June 2024 he will take on new responsibilities as Head of EASA's International Cooperation Department.

Captain Gilbert Macharia Kibe
SAATM - PIP Ambassador
for Eastern Africa

Capt. Gilbert Macharia Kibe is the Managing Director of Air Transport Consulting Ltd, a company devoted to the growth and development of aviation. Adding value to the aviation industry by providing advisory and consulting services that open doors to opportunities in Africa for aviation enterprises. He is the former Director General of Kenya Civil Aviation Authority (KCAA) responsible for the management and administrative activities of the Authority and the Principal Advisor to the Cabinet Secretary responsible for civil aviation. He served for 7 years (2015-2022). He also served as Board Chairman of the Communications Authority of Kenya for 7 months (May-December 2022). Before the above appointments, he worked as the Chief Executive of Nairobi Flight Training Limited from 2007 to 2015 and has now resumed the role after departing KCAA. Capt. Kibe was also appointed in October 2022, a Single African Air Transport Market; Pilot Implementation Project (SAATM – PIP) Ambassador for the African Civil Aviation Commission (AFCAC) – Eastern Region. His mandate is to engage all 14 Eastern Africa Partner States to speed up the operationalisation of the African Union YD leading to the full and sustainable implementation of SAATM. He has a wealth of experience in the aviation sector spanning over 42 years and has acquired valuable skills and expertise in aviation, air transport industry management, and property development. In addition to these positions, Capt. Kibe was the Chairperson of the Civil Air Navigation Services Organization (CANSO) Executive Committee, the ICAO Regional Aviation Safety Group, Africa and Indian Ocean (RASG-AFI), the ICAO African Flight Procedure Programme (AFPP) Steering Committee, and the East African Community, Civil Aviation Safety and Security Oversight Agency (EAC-CASSOA) a regional Safety Oversight Organization (RSOO). Capt. Kibe holds an MBA (Aviation Management) from Moi University. He is a visionary leader who has provided strategic leadership at the senior level in the Corporate and Government sectors, thus gaining acumen in aligning organisational effectiveness to national development objectives and designing short, medium, and long-term strategic goals. He is a licensed Commercial Pilot and a holder of Flight Instructors', Instrument, Multi-Engine Piston, and Turbine Engine Ratings.

Captain Irene Koki Mutungi
Board of Governors
Member
Flight Safety Foundation

Captain Irene Koki Mutungi is a Boeing 787 Captain and Deputy Chief Pilot at Kenya Airways. She serves on the Flight Safety Foundation Board of Governors. She began her career at Kenya Airways, where she became the first African woman to captain a Boeing 737 and the first female captain of a Boeing 787 Dreamliner in Africa. Captain Koki is the recipient of a number of awards and recognitions including Forbes' "20 Youngest Power Women in Africa", Forbes Magazine's "Top 30 under 50", Women4Africa Award, and Akwaaba – Africa Travel Award. In 2022 she was inducted to the Aviators Africa (South Africa) – Hall of Fame. Captain Koki is passionate about mentoring young aviation professionals and plans to start a foundation to support underprivileged youth.

Shahab Matin
Managing Director
Commercial Marketing
Middle East & Africa
Boeing

Managing Director Commercial Marketing Middle East & Africa, Shahab is the Managing Director of Commercial Marketing for Africa and the Middle East. Before this he served as a Senior Manager of Marketing Strategy following almost ten years in Regional Marketing supporting a diverse portfolio of airlines across the Middle East, Europe, Eurasia, and Northeast Asia. Shahab joined Boeing in 2001 as a Propulsion Systems engineer and later worked in Product Development as an Aircraft Performance engineer. His career started at Cessna in Propulsion and Flight Test engineer on business jets. Shahab holds a MBA from the University of Washington Foster School of Business and a Bachelor of Science in Aerospace Engineering and Mechanics from the University of Minnesota. He lives in the Seattle area with his wife and two daughters.

Sharon Mahony
Associate Sustainability
and CEM Expert,
ENVISA

Sharon is an Associate of Envisa since 1 October 2021, working principally with Envisa a specialized consultancy based in Paris that has been at the forefront of aviation sustainability solutions since 2004. At Envisa Sharon is developing training and customised consultancy services for the aviation sector and is a World Business Partner for ACI Africa and Asia Pacific & Middle East.

She brings with her extensive multi-stakeholder experience from EUROCONTROL's Aviation Sustainability Unit. During her career at EUROCONTROL Sharon drafted the Collaborative Environmental Management (CEM) Specification and lead its implementation across Europe. This involved close collaboration and engagement with operational stakeholders at Airports, industry partners and European Organisations. Sharon represented EUROCONTROL on the ACI Environmental Strategy Committee.

In addition, Sharon developed and lead EUROCONTROL's Aviation Sustainability training portfolio. She previously worked in Human Resources and the Central Route Charges Office. Sharon started her career in the private banking, futures market and industrial insurance sector. Through this, Sharon has gained a unique experience and insight into both support and operational roles in the aviation world.

Outside of her aviation work, Sharon is actively involved with Femmes d' Europe (FdE) a non-political, independent organisation based in Belgium and Luxembourg focusing mainly on education, training and health programmes for women and children globally. It finances small-scale projects aiming to reach those who do not get government subsidies nor helped by large NGOs. Sharon teaches English and environmental awareness to young people.

Sharon holds a BSc (Hons) in Psychology and Sociology and an MA in Environment, Politics and Globalisation from King's College London (2017). She graduated in Plastic Arts from the Ecole des Beaux Arts Bruxelles. Sharon is also qualified as a Business Coach and Facilitator and Climate Fresker. Sharon speaks English and French and lives in Bruxelles, Belgium.

José Ricardo Botelho
Executive Director &
CEOALTA

José Ricardo Botelho ALTA Executive Director & CEO José Ricardo Botelho is a Lawyer from the Catholic University of Salvador, Brazil with experience in civil aviation and public service. Prior to joining ALTA, José Ricardo served for 4 years as President of the Brazilian National Civil Aviation Agency (ANAC) and, for about two and a half years, he served as Brazil's Alternate Diplomatic Delegate to ICAO, actively participating in the amendments to the text of the Tokyo Convention in the work relevant to Brazil's entry in ICAO's Public Key Directory (PKD) and in the systematization of API (Advanced Passenger Information), besides having worked on the rules against acts of unlawful interference (AVSEC) for civil aviation. José Ricardo holds a postgraduate degree in Criminal Sciences from Jorge Amado University and a postgraduate degree in Public Security Management from the National Police Academy, both from Brazil.

Ms. Helen Aigbe Brume
Director, Project and Asset
Based Finance.
AFREXIMBANK

Ms. Helen Aigbe Brume brings over 20 years of Global Banking Experience where she has taken on leadership roles in Project Finance, Asset Finance, Corporate Banking, Investment Banking, Corporate Finance, Capital Markets, and Strategy Ms. Brume holds an MBA in Finance and Strategy from Rutgers Business School, New Jersey, U.S.A. She also holds a Bachelor' degree in Accounting from the University of Lagos, Nigeria. In 2019, she completed the Advanced Management and Leadership Programme (AMLPL) at University of Oxford, Saiid Business School, and she is also a Certified Chartered Accountant (ACCA). Prior to joining Afreximbank in 2022, she spent the 13 years working in Nigeria in several roles most recently serving as the Deputy General Manager and Group Head for Energy and Specialized Markets Union Bank of Nigeria Plc for 3 years. Prior to Union Bank, she was the Divisional Head, Power, Infrastructure and Project Finance at the United Bank for Africa Plc for 5 years with a primary responsibility to originate, structure and execute Power, Infrastructure and Project Finance transactions across Nigeria and 18 African Countries. Ms. Brume was also the pioneer Head of Power and Infrastructure at Ecobank Nigeria and worked in Citibank Nigeria as Assistant Vice President Corporate Finance. Helen begun her career on Wall Street as an Analyst at Prudential Financial and progressed to various Finance and Strategy related roles at Merrill Lynch, and Lehman Brothers, New York.

Captain Haig Anyonyi
Director of Corporate
Quality, Safety and
Environment
Kenya Airways

Captain Haig Anyonyi is a seasoned aviation professional with nearly two decades of experience in the industry. He joined Kenya Airways in 2006 and has since demonstrated a remarkable growth journey, rising from First Officer to Captain. Throughout his tenure at Kenya Airways, Captain Anyonyi has taken on various management roles that reflect his expertise and leadership. He has served as the Chief Flight Instructor (CFI) and fleet Manager on Kenya Airways Embraer fleet, Flight Data, and Flight Simulator Compliance Manager, showcasing his broad understanding of aviation's operational and regulatory aspects.

As the Director of Corporate Quality, Safety and Environment, Captain Anyonyi is responsible for maintaining corporate safety and quality policies, promoting a safety-first culture, and ensuring that Kenya Airways achieves high standards of safety and quality performance. He aims to foster a best-in-class safety environment that meets and exceeds regulatory, industry, and company requirements.

Captain Anyonyi's wealth of experience and commitment to safety make him a key player in driving Kenya Airways' safety and compliance agenda. He is dedicated to ensuring that safety is always front and center, contributing to the overall safety culture in African aviation.

**Jehad Faqir**

Head Regional Safety Africa & Middle East Operations, Safety & Security
IATA

Jehad Faqir a Jordanian national brings over 39 years' technical experience and professional leadership while working in the aviation industry. He started his carrier at Royal Jordanian Airlines in 1976 where he held numerous managerial positions within the airline encompassing Production, Engineering developments, Technical Planning, Avionics Shops and IT. During that period, he was actively involved with various regional organisations including ICAO, Arab Civil Aviation Commission (ACAC), Arab Air Carrier Organization (AACO) where he served as a Vice Chairman of AACO Operations Committee and the head of Avionics Subcommittee for several years. From there, in 2000 his career path took him to IATA Middle East office as Director Safety, Operations & Infrastructure with responsibility covering technical & operational aspects of airport and air navigation services, CNS/ATM developments and implementation; as well as matters related to regional flight safety Bio Jehad Faqir in 2007 he joined ICAO Middle East regional Office as Deputy Regional Director and Technical Team leader. In March 2014 he re-join IATA Africa & Middle East regional office taking responsibility of Safety & Flight Operations Middle East & North Africa. In January 2023 he was appointed as Head Regional Safety Africa and Middle East. He attended numerous training and managerial courses in aviation field and holds a Master of Science degree in Applied Electronics.

Emam Amir
Senior Sales Director the
Middle East, Türkiye, and
Africa
GE Aerospace

Amir is Senior Sales Director overseeing sales and growth across the Middle East, Türkiye, and Africa. With over 20 years of international experience in the aviation industry, Amir is a commercially driven executive with a passion for supporting operators with their Sustainability and Digital Transformation projects.

Amir's unique collaborative approach, and his passion in driving digital transformation and sustainability initiatives within the aviation industry, has resulted in driving impactful change and fostering strategic partnerships within the digital space of aviation. This can be seen through the latest partnerships fostered with major airlines such as Etihad Airlines, Saudia Arabian Airlines, Qatar Airways, and Emirates Airlines, among others, ultimately contributing to the industry's continued evolution and success in the region.

Amir's educational background includes a BS in Electrical Engineering and an MBA from the University of Texas at Arlington, complemented by his Six Sigma Black Belt certification.

Christopher McGregor
Flight Safety Officer
ATR

Christopher McGregor is the ATR Flight Safety Officer, leading the Investigation, SMS, and Regional Safety Plan teams, supporting our customers in every region we serve. He is a graduate of Heriot-Watt University, Edinburgh, and a Fellow of the Royal Aeronautical Society. Christopher currently chairs the AviAssist Foundation board empowering volunteers and fellow professionals to promote flight safety training and co-operation across the African continent.

Ibra B. WANE
Business Development
Director,
APG

Ibra Birane Wane has 35 years' experience in the air transport industry. He is a graduate of the University of Toulouse 1 and Aix Marseille 3. He joined Air Mauritanie in 1989, where he spent a year. He then joined the Bolloré Group's Air freight in Dakar, then the Senegalese Civil Aviation Authority.

In 1992, he joined Air Afrique as an executive in the International Affairs Department, where he soon became Head of the International Cooperation Section. After a few years, he was appointed Director for Ghana in 1997 and then Director for Benin two year later. In 2002, he joined Air Sénégal International to set up and manage the company's Paris and European offices. In 2005, he's appointed Vice President Commercial and Marketing at the Dakar head office.

In 2008, he joined Royal Air Maroc as a member of the Management Committee and Vice President Commercial Prospects in Casablanca.

He returned to Senegal in 2010 to head up the Africa office of AVICO, Europe's leading airlines broker. On behalf of AVICO, he represents Corsair International in Senegal and Côte d'Ivoire, South African Airways and other airlines.

Cumulatively, since 2014, he has been appointed APG's Business Development Director for Africa and Middle East. He regularly represents APG in Afraa AGA and Stakeholders' Conventions.

In his career, Mr. Wane has also worked as a consultant for the European Union, IATA and other organizations such as ECOWAS and UEMOA. He participated in the creation of the COSCAP for West and Central Africa. He led the mission to set up Air Sahel for the G5 countries.

He is a major player in African air transport, and has taken part in a number of projects of continental interest, including the creation of airlines.

MR. Jason Sutcliffe
Marketing Director- Middle
East, Africa & Central Asia
Rolls Royce

Jason is Rolls-Royce's Regional Marketing Director for Europe, Middle East, Africa and Central Asia, based in the UAE, where he has lived since 2017.

He joined Rolls-Royce in 2006, initially as a Fleet Planner in the newly formed Operations Centre in Derby, UK. After three years and following a one-year secondment with Singapore Airlines, Jason undertook a position in East Hartford, USA as the Customer Fleet Director with International Aero Engines (IAE), where Jason was responsible for the day-to-day management of the V2500 engine fleet in the Middle East.

In 2012 he returned to the UK to take up the position of Marketing Director for Rolls-Royce, playing a customer relationship role in both the Target and Sales phases.

Prior to joining Rolls-Royce, Jason spent 19 years in the British Royal Air Force as an Aircraft Engineer.
